513 Holly Street, Vallejo, CA 94589

Professional Summary:

Student in computer science and data analysis, possessing hands-on experience in software programming, use of containers, and databases. With an interest and basic understanding of cybersecurity, currently building practical experience through TryHackMe labs focused on web security and networking fundamentals. Also, possessing hands-on experience of secure programming, authentication, and data security. Exposure to collaborating in a production environments using software like GitHub, Docker, MongoDB, and Jira.

Skills:

Programming Languages: Python, JavaScript, SQL, C++

Frameworks & Web: Django, Angular, HTML, CSS

Tools & Platforms: Docker, WSL (Ubuntu), GitHub, MongoDB Compass, Jira, SonarQube

Security Concepts: Secure coding, input validation, authentication handling, database security awareness

Other: Data structures, troubleshooting, customer service

Cybersecurity Training:

- Palo Alto Networks Cybersecurity Foundation
- Palo Alto Networks Security Operations Fundamentals
- Palo Alto Networks Network Security Fundamentals
- Palo Alto Networks Cloud Security Fundamentals
- TryHackMe — Pre Security Path (In Progress)
- TryHackMe — Web Fundamentals Path (In Progress)

Education:

B.S. in Information Science and Data Analytics,
San Jose State University, San Jose, CA,
Expected graduation: May 2026, SJSU GPA: 3.608

A.S. in Science & Mathematics Emphasis,
City College of San Francisco, San Francisco, CA
Graduated: May 2024 · *Dean's list*, 2022

Work Experience:

Technical Intern I – Customer Experience (CX) Team, Cisco Systems, June 2025 – September 2025

- Worked on internal applications using Angular and TypeScript, focusing on responsive and reliable UI development.
- Contributed to GenUI, an AI-powered interface builder that processes structured and unstructured data.
- Acquired hands-on skills in working on containerization using Linux through WSL, Docker, and Bun.
- Handled database operations in MongoDB (Compass), adhering to coding guidelines on GitHub, SonarQube, and Jira.
